

Your Partner in Compliance, Quality & Workplace Training

Idatum brings together two powerful divisions — **Idatum QA** for quality control partnerships and **Idatum Academy** for outcome-led compliance training. One brand. Two clear paths to a stronger, safer, and more accountable organization.

TWO DIVISIONS. ONE MISSION.

Choose Your Path

Whether you need a quality control partner or a training program that drives real behavioral change, Idatum has a dedicated division built for your goals.

Idatum QA

A strategic quality control partner that embeds into your processes, not just an external auditor. We work alongside your team to build sustainable compliance frameworks.

Idatum Academy

Outcome-led professional training delivered Online and Offline. From POSH and Audit to ISMS, SOC 2, ISO, and ITGC — our courses equip teams with skills that hold up in the real world.

WHY IDATUM

Built for Organizations That Take Compliance Seriously

Outcome-Led Training

Every course is designed around what your team will *do differently* after training — not just what they sat through.

Online & Offline Flexibility

Deliver training in the format that fits your workforce — in-person at your site or fully remote, with no compromise on quality.

Compliance-First Design

All programs are structured around relevant compliance requirements, so your organization stays protected and audit-ready.

Clear, Direct Action

Every engagement starts simply — Request a Demo, View a Course, or Contact Us. No lengthy sales cycles before you see value.

Not sure where to start?

IDATUM QA

Quality Assurance That Works Alongside You — Not Around You

Idatum QA is not a third-party audit vendor. We function as an embedded quality assurance partner, working within your workflows to build compliance processes that your team can sustain and build on.

[Request a Consultation](#)

What Sets a Partner Apart from a Service Provider

A Typical QA Vendor

- Delivers a report and moves on
- Operates in isolation, with little visibility into your day-to-day
- Focuses on point-in-time compliance
- Off-the-shelf frameworks with no contextual fit

Idatum QA as Your Partner

- Works alongside your team throughout the engagement
- Builds internal capability, not just findings
- Focuses on sustainable, ongoing compliance culture
- Designed around your organization's needs

Our Quality Assurance Engagement Timeline

Discovery

We map your current quality assurance landscape, identify compliance gaps, and align on goals and priorities with key stakeholders.

1

Implementation

Our team embeds with yours to roll out processes, documentation, and training in a structured, phased approach.

3

2

Planning

We co-develop a tailored QA framework relevant to your compliance context and operational structure.

4

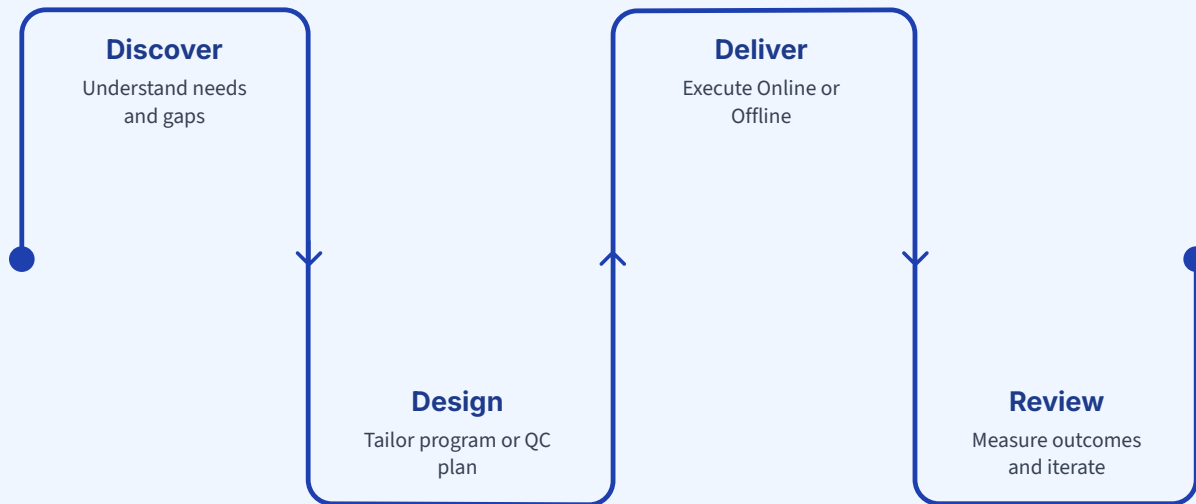

Review & Handover

We review progress and agree on next steps and ensure your internal team is equipped to sustain compliance independently.

Discuss

A Process Built for Your Organization

From the first conversation to ongoing support, Idatum follows a structured, transparent engagement model. Here's a preview of how we move from discovery to impact.

This approach guides both Idatum QA engagements and Idatum Academy programs.

Why Organizations Choose Idatum QA

Embedded Expertise

Our QA specialists integrate into your team's daily operations, ensuring knowledge transfer happens at every stage — not just in a final report.

Regulatory Alignment

All QA frameworks are designed to align with applicable legal and industry standards, supporting stronger audit preparedness.

Scalable Engagements

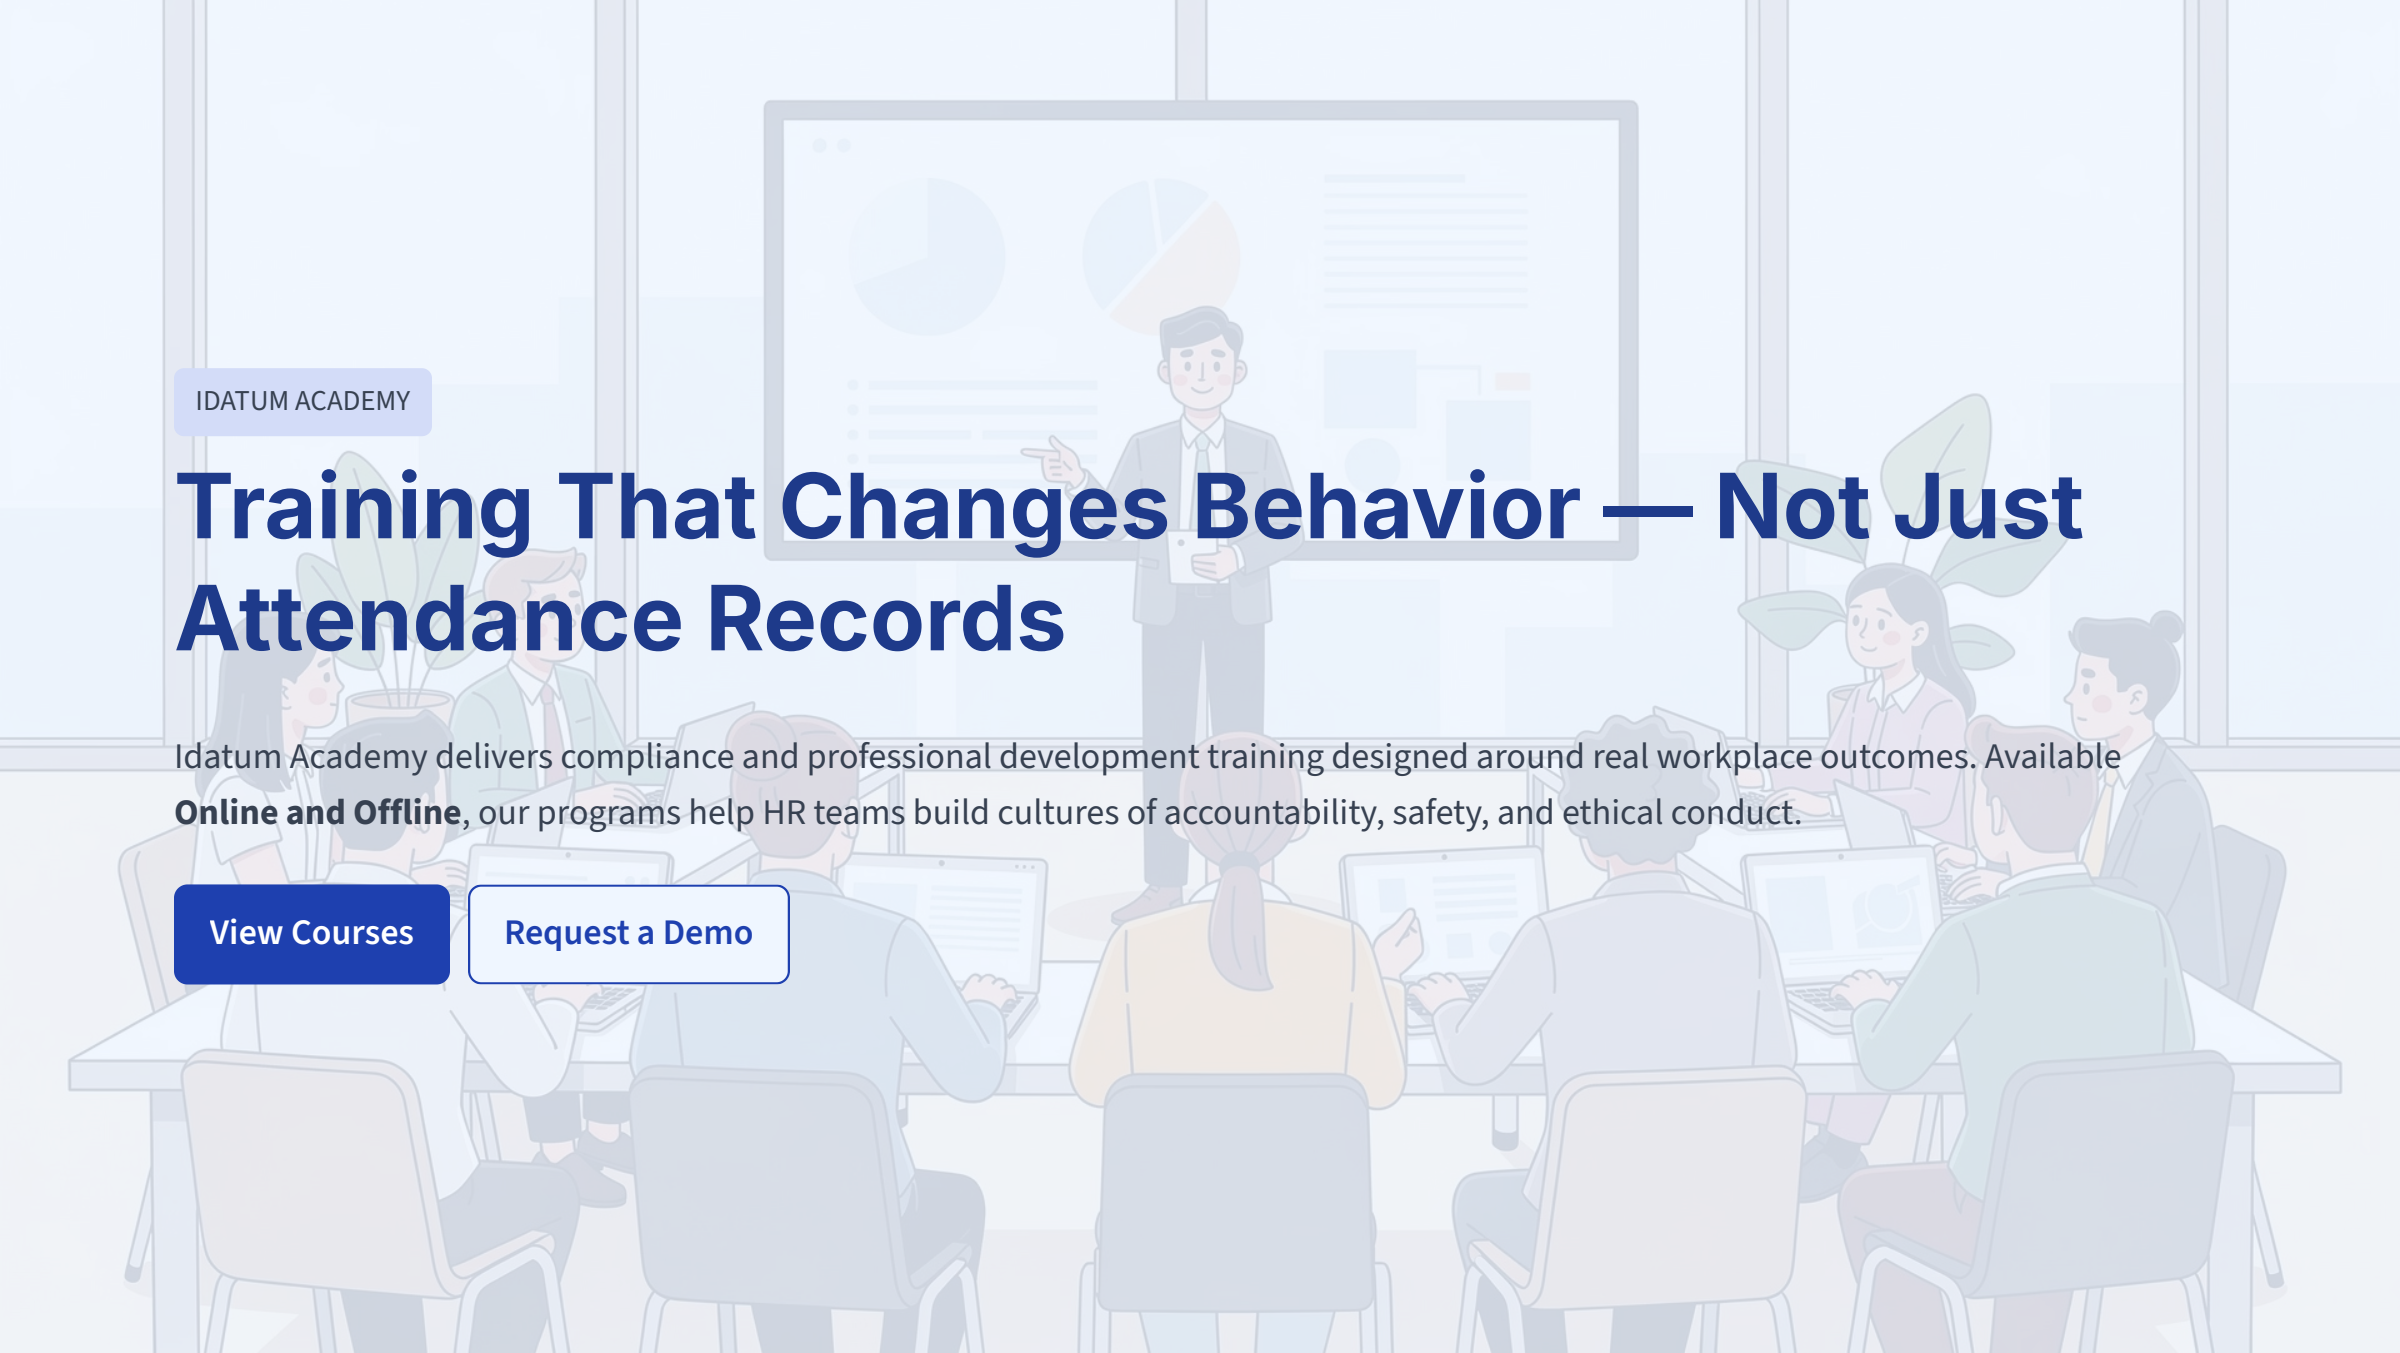

Whether you're a growing mid-size company or a large enterprise, our engagement model scales to match your team size, complexity, and timelines.

Ownership Mindset

Idatum takes ownership of the quality process — not just the deliverable. We stay accountable to outcomes, not just timelines.

Discuss

The background of the entire page is a light blue illustration of a classroom. A male teacher in a suit stands at the front, pointing at a large screen displaying two pie charts and some text. Several students are seated at long tables, facing the teacher. They are using laptops, and some are looking towards the front. There are potted plants on the tables. The overall style is clean and professional.

IDATUM ACADEMY

Training That Changes Behavior — Not Just Attendance Records

Idatum Academy delivers compliance and professional development training designed around real workplace outcomes. Available **Online and Offline**, our programs help HR teams build cultures of accountability, safety, and ethical conduct.

How We Train: Philosophy & Delivery

Our Approach

Every Idatum Academy course is built backwards from the outcome. We define the behavioral results first — what employees should be able to do, say, and decide — then design the curriculum to get them there.

This outcome-led model keeps training focused on measurable workplace improvement, not content volume.

Online Delivery

- Live virtual sessions with a experienced facilitator
- Accessible from any location or device
- Ideal for distributed teams

Offline (In-Person) Delivery

- On-site sessions at your office or preferred venue
- Interactive facilitator-led group learning
- Better for leadership and sensitive compliance topics
- Flexible scheduling

Not sure which format fits? Contact us and we'll recommend the right approach for your team.

Request a Demo

POSH Awareness for All Employees

This program helps your organization build a workplace where every employee understands their rights, responsibilities, and the reporting process — reducing risk and fostering a culture of respect and accountability.

What You'll Achieve

After completing this course, participants will be able to identify prohibited conduct, understand reporting obligations, and apply a respectful communication standard in day-to-day interactions.

Delivery Format

Available **Online** via live virtual sessions and **Offline** through in-person facilitator-led workshops. Format can be customized by team size and location.

Who This Is For

Designed for all employees across roles and levels — particularly valuable for new joiners, frontline managers, and teams undergoing compliance renewal cycles.

Go Further by Partnering with Idatum

Whether you're a consulting firm, training provider, or industry association — partnering with Idatum gives you access to a trusted compliance and quality assurance brand, co-branded offerings, and a shared mission to raise standards across organizations.

Referral Partners

Refer clients to Idatum QA or Idatum Academy and earn a structured referral benefit. Ideal for HR consultants, compliance advisors, and independent practitioners.

Training Affiliates

Co-deliver or resell Idatum Academy courses under a formal affiliate arrangement. Suited for training institutes, L&D firms, and corporate learning platforms.

Corporate Resellers

Bundle Idatum's QA or Academy offerings into your own service portfolio. Designed for consulting firms and managed service providers looking to expand their compliance practice.

[Explore Partnership Options](#)

WHY PARTNER WITH US

What You Get as an Idatum Partner

Idatum partners benefit from more than a referral arrangement — we build relationships that grow with you.

Expand Your Offerings

Add Idatum QA and Academy services to your portfolio without building from scratch. Serve your clients better with proven compliance and training solutions.

Revenue Opportunities

Earn through structured referral fees, reseller margins, or co-delivery arrangements — depending on your partnership type.

Co-Marketing Support

Get access to co-branded materials, joint campaign opportunities, and visibility through Idatum's channels.

Dedicated Onboarding

Every partner gets a structured onboarding process so you can represent Idatum's offerings with confidence from day one.
